

Homeless Children & Youth Fund

Homelessness and poverty have continued to rise in Eau Claire since 2008. Each year, the Eau Claire Area School District serves nearly 11,000 students, and 39% live below the poverty level. Many families are choosing food vs. paying bills, and often, these families cannot afford necessities that support a happy, healthy child.

The Homeless Children and Youth Fund helps students within the Eau Claire Area School District with transportation, school supplies, school activity fees, equipment, clothing, and hygiene items necessary to succeed in school.
